Sequence 4, Application US/09824735

Patent No. US20020095032A1

GENERAL INFORMATION:
APPLICANT: ZHU, JIAN-KANG
APPLICANT: LIU, JIPING
APPLICANT: ISHITANI, MANABU
APPLICANT: KIM, CHEOL-SOO
TITLE OF INVENTION: PROTEINS AND DNA RELATED TO SALT TOLERANCE IN PLANTS
FILE REFERENCE: 205645US20
CURRENT APPLICATION NUMBER: US/09/824,735
CURRENT APPLICATION NUMBER: US/09/824,735
CURRENT FILING DATE: 2001-08-17
PRIOR APPLICATION NUMBER: US 60/824,735
PRIOR FILING DATE: 2000-04-04
NUMBER OF SEQ ID NOS: 16
SOFTWARE: PATENT APPLICATION NUMBER: US 60/824,735
LENGTH: 552
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        APPLICANT: Rosen et al.

ITILE OF INVENTION: Nucleic Acids, Proteins and Antibodies

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            Pred. No. is the number of results predicted by chance to have a score greater than or equal to the score of the result being printed, and is derived by analysis of the total score distribution.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              DB
